ROGERS, PEET & CO.

NEW YORK.

SPRING OF 1891.

Although we are liberal users of the city papers in soliciting local trade, we do not advertise for mail orders.

People at a distance who order clothing by mail are usually of two classes—those to whom a low price is the chief consideration, and those who do not mind paying a liberal price, but who want their clothes made to order.

Because we neither sell “cheap” clothing nor make garments to measure, we are seemingly not in position to meet the expectations of either of these two classes of customers; although, really, we are prepared to serve both of them acceptably, if they only knew the kind of clothes we deal in.

The growth of our mail order trade comes principally from the recommendation of our goods by persons who have used them. We issue this book to answer the inquiries that come to us unsolicited. It is also mailed to

regular customers as an acknowledgement of our appreciation of their former custom and the wish to serve them further.

FOR NEW CUSTOMERS.

As far as possible this book contains an accurate description of our season's stock ; and yet we produce many new things after the date of its publication.

The pictures represent prevailing fashions. Decide first what style of garment you prefer and write for samples representing that style, expressing your preference as to fabric, color and price. If for a boy, be sure to state his age and whether long or short trousers are worn.

With the samples we send easy directions for measurement.

HOW WE FIT EVERYONE.

About sizes and shapes of rightly-made clothing there is a general misconception. Men think they can't be fitted. On the contrary, it is easier to find a perfect fit in our stock than to get it specially made, for your tailor seldom hits the mark on first trial.

Of every single breast measure we cut a different shape for men of "regular" build, another for slender, long-armed men, a third for stout

men, a fourth for "short-stouts." With occasional slight alteration, here is provided the exact garment for men of every mold.

NO RISK IN TRYING.

Whatever we send out is on approval, subject to return at our expense ; and if garments prove faulty after use, we expect to make good your loss at any time.

For information about terms, see last page.

Light weight Overcoats for Spring and Fall are cut rather full in the back.

The extreme of fashion, called a "box" coat, hangs like a bag from the shoulders. We follow the happy medium of correct style by making our Spring Overcoats conform just enough to the figure to give an easy, graceful fit.

The staple overcoat fabrics are Thibets, Kerseys, Meltons, plain and twilled Worsteds, etc. We have added this season some fancy Cheviots to meet the demand tending in that direction.

Men's sizes from 33 to 44 inches chest.

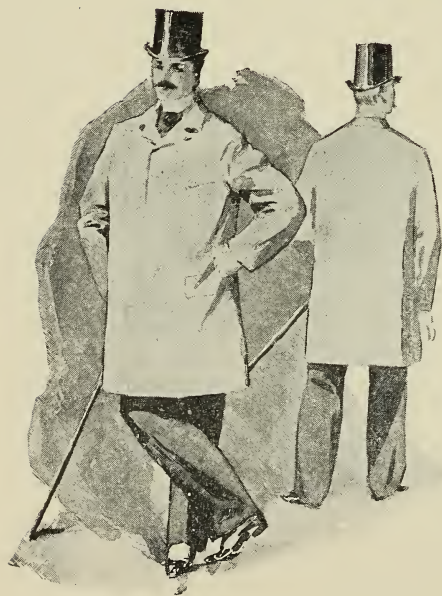

For plain-lined coats, \$10 to \$22.

For silk-faced coats, \$15 to \$18.

For silk-lined coats, \$25 to \$30.

Youths' and large boys' sizes, 30 to 34 inches chest, ten to twenty per cent. less.

Men's unlined cape overcoats of black Thibet, for driving, or to wear over a dress suit, \$20.

A man's wardrobe is incomplete without a full dress suit. Whatever social occasion he attends after dark, however others may dress, he is properly attired if in "Evening Costume." This fashion never changes. But do not wear a "swallow-tail" coat in day-time.

Sizes to fit every person from a boy of sixteen to a man measuring 44 inches chest.

Coats of black Broadcloth, with Italian cloth lining, \$15.

With satin-lined skirts, \$20.

With full satin lining, \$25.

Suits of black twilled cloth, coat silk-lined, \$45.

Black cloth vests, \$3.50, \$5, \$6.

White Marseilles vests, \$3.

Black watered silk vests, \$5.

Black doeskin trousers, \$7 to \$10.

Double-breasted Frocks, called "Prince Alberts," are a little "off"; although fashionable, London threatens to return to the long-skirted frock of a generation ago.

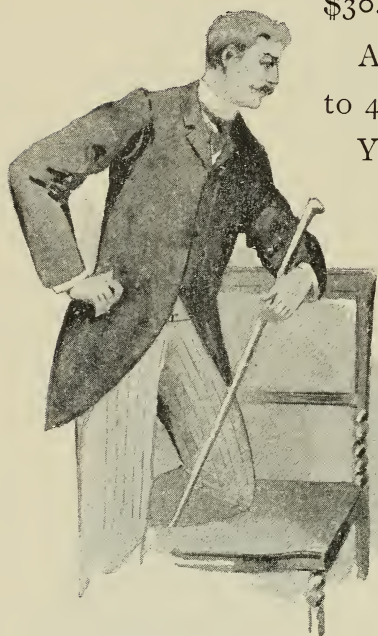

A few "Prince Alberts" are worn by sedate men, and we keep up our lines in Diagonal Worsteded and Tricots.

Tricot Suits, \$26.

Diagonal Worsted Suits, \$26.50 to \$39.

Corkscrew Worsted Suits, \$30 to \$42.

Black Broadcloth Coats and Vests, \$21.50 and \$30.

Above prices for men's sizes, 33 to 44 inches chest.

Youths' and large boys' suits, 30 to 34 inches chest, ten to twenty per cent. less.

Evolution in men's dress seems to have culminated in the Single-breasted Cut-away Coat; for that becoming garment holds its own against all rivals. Its modifications tend toward more graceful lines,

through changes hardly observable to the eye untrained in matters Sartorial; and three is now the regulation number of buttons.

Black Cutaway Coats, with vests of same and trousers of lighter color, are good form for every

social occasion in daylight. White or fancy figured vests are frequently worn. In mixtures for business use, entire suits are of same fabric.

Cutaway suits of black Thibets, \$15 to \$20.

Black Cheviots and Serges, \$15 to \$30.

Black soft finished Worsteds, \$22 to \$35.

Fancy Worsteds, \$18 to \$28.

Fancy Cassimeres, \$15 to \$25.

Above prices for men's sizes,
33 to 44 inches chest.

Youths' and large boys' suits, 30 to 34 inches chest, ten to twenty per cent. less.

Last Winter the Double-breasted Sack Coat had a great run. A sensible Winter garment, but rather heavy for Spring and Summer. A good many will be used, however, and we are prepared to supply the demand.

In light flannels and fancy serges for "outing" wear, the Double-breasted Sack is decidedly "fetching."

Suits of Black Thibet, \$16 and \$20.

Blue Flannel, \$16.

Blue Serge, \$16 and \$25.

Black Cheviot, \$18.50 to \$23.

Fancy Summer Serges, \$20.

Above prices for men's sizes, 33 to 44 inches chest.

Youths' and large boys' suits, 30 to 34 inches chest, ten to twenty per cent. less.

There's little to be said about the Single-breasted Sack Coat. "For men that like that kind of a coat it is just the kind they like." Cheviots are returning to favor, and we have cut some very neat selections into single-breasted sack suits; besides a variety of fancy worsteds and cassimeres. About everything in fabrics is represented in this style of suit.

Black Thibets, Serges, Cheviots and Tricots, \$15 to \$22.

Fancy Cheviots, \$22 to \$25.

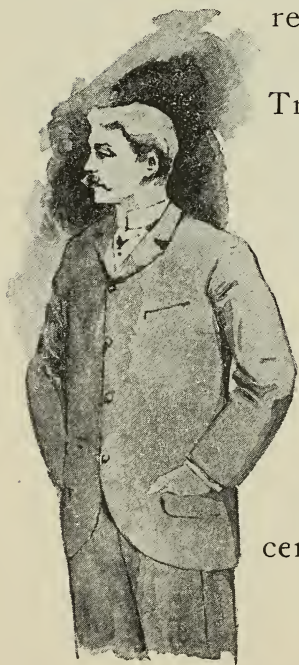

Fancy Cassimeres and Worsteds \$15 to \$25.

Blue Flannel, \$15.

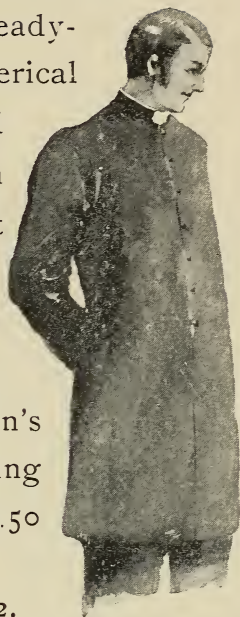

Blue Serges, \$15 to \$25.

Above prices for men's sizes, 33 to 44 inches chest.

Youths' and large boys' suits, 30 to 34 inches chest, ten to twenty per cent. less.

It is only of late years that garments of regular ecclesiastical cut could be found ready-made. We carry several grades of clerical frocks cut with both standing and rolling collar. The fabrics are plain black cloth (\$26 per suit), Black Tricot (\$24 per suit), Black Thibet (\$17 and \$23.50 per suit). "Cassock" Vests of the various fabrics, \$3.50 to \$5.

Summer Sack Coats of black Nun's Cloth, with both open collar and rolling lapels, or with high clerical collar, \$5.50 and \$6.

Black Thibet Sack Coat, unlined, \$12.

For clergymen who prefer not to wear the regulation cut, we make of black Thibet a single-breasted straight front frock; price for suit, \$24.50.

(TEN PER CENT. DISCOUNT ON EVERYTHING
USED IN THE CLERGYMAN'S FAMILY.)

LIVERY.

Even unpretentious people put their drivers in plain livery. It looks so neat and costs so little.

Coachmen's coats, with silver, gilt or plain buttons. Blue, Green or Black Cloth, \$22.

Trousers, \$9. Fancy Vests, \$6.

Fancy Vest Collars of striped "Valentian," all colors, \$2.

Coachmen's Green, Blue or Black Kersey,
wool-lined double-breasted, Overcoats, \$30.

PAGES' SUITS. (*See Picture on Front Cover.*)

Blue Tricot, \$15.

Green Tricot, \$17 ; with gilt or silver buttons.

UNIFORMS.

We have no facilities for making fancy Uniforms, but carry in stock standard Blue Flannel suits, made with eyelets for changeable buttons ; \$15 for single-breasted Sack suits ; \$16 for double-breasted, with Gilt or Covered buttons.

TROUSERS.

Such a variety of patterns in fancy Worsted, Cassimeres, Cheviots, etc., is cut for each season that description is wholly inadequate to a proper conception of the stock. Depend upon samples ; \$4 to \$10.

MEN'S HOT WEATHER CLOTHING.

Because of its loosely woven texture, Cheviot makes as comfortable Summer clothes as anything. Blue or black Serges are likewise serviceable and comfortable. We make them all in coats with "skeleton" back. See quotations under heading of Sack Suits.

Of course we keep the usual staple Summer coats of black Alpaca and colored Mohairs, costing \$3 to \$6. "Nun's Cloth" is more popular than either; looks more like a serge, and is more durable than alpaca. Black or Gray Nun's Cloth Sack Coats, \$5 and \$5.50. Vests, \$2.50. Trousers, \$4.

Pongee Silk Coats, \$5; Vests, \$3; and this year we have a genuine novelty in a straw colored Japanese Bamboo Cloth which washes beautifully. Coats and Vests, \$10; no Trousers. Various light unlined Cassimere or Flannel Coats, \$3.50 to \$6.

Wash Vests. Plain and fancy Duck, \$2.50 to \$6.50, cut both single and double-breasted, the latter rather more fashionable.

Dusters of drab linen, which is really the best because it can be washed; of drab, slate or gray-mixed Mohair, and of Pongee. The silk ones cost \$9; the others \$3 to \$5.

THE SMALL BOY

(Whether he be a Fat or a Slender Boy).

In all, except the pleated blouse suits, we cut special sizes to fit stout or slender boys.

Extra knickerbockers may be had to match any suit.

Patch pieces and extra buttons attached to all suits.

From the time a boy puts on Kilts we become his outfitters.

We handle Kilts less for profit than for the completion of our stock.

The variety of cut and trimming forbids their description or representation by sample like other garments.

You must trust us to pick them out.

The sizes are $2\frac{1}{2}$ to 6 years, and the prices \$5 to \$15.

Following Kilts come little fancy costumes with more or less trimming, no more quotable or describable than the Kilt suits.

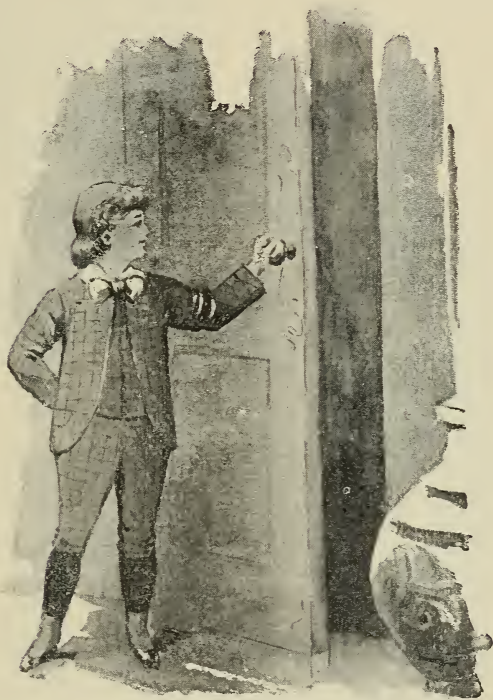

“Middy” suits (long trousers) at \$9 to \$10.50, and Sailor suits, with

PLEATED BLOUSE SUIT.

knickerbockers, \$4.50 to \$6.50. White fancy trimmed serge, \$7.

One of the prettiest styles worn with knickerbockers is a jacket fastened at throat with a

CHILD'S VEST SUIT.

loop, and cut away sufficiently to display beneath either a cute little vest or a ruffled shirt front.

In Fancy Cheviots, \$5 to \$9.50.

Black Diagonal Worsted, \$12.

Tricot or Velvet, \$13.

Instead of the old-fashioned belted "Norfolk" blouse for boys of 4 to 13 years, we make a neat pleated blouse, which is specially becoming to slender boys.

Fancy Cheviots and Worsteds, \$4.50 to \$9.50.

Black Thibets, \$6.50 and \$8.50.

Blue Flannel, \$6 and \$7.

Blue Thibet, \$7.

Blue Tricot, \$8.50.

Blue Serge, \$7.50 to \$9.

Black Tricot and Diagonal Worsted, \$10.

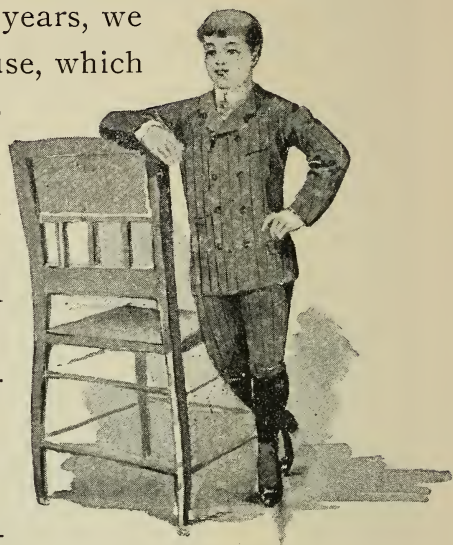

White and Fancy Striped Worsted, \$7.50 to \$8.

Cutaway coat, with vest and knickerbockers, for lads of 10 to 16 years, play an important part

in the stock of juvenile attire. Most of our dress suits for boys are cut that way, and a large variety of school suits.

Fancy Cassimeres, \$7.50 to \$11.50.

Mixed Cheviots and Worsteds, \$8 to \$13.

DOUBLE-BREADED BLOUSE.

CUTAWAY COAT.

Black Thibets, \$8.50 and \$11.50.

Black and Blue Diagonal Cheviot, \$11.

Blue Tricot, \$10 and \$14. Black Tricot, \$14.

Black Worsteds, \$13 and \$14.

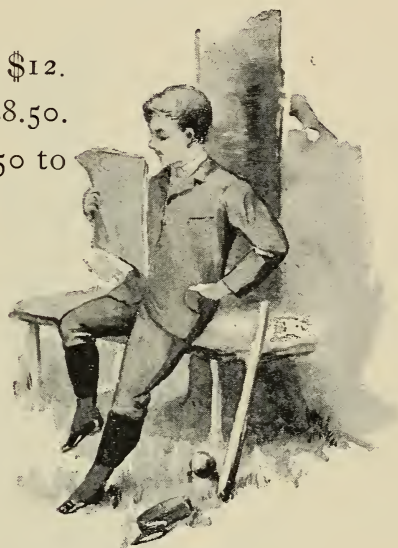

The plain single-breasted blouse with knickerbockers, for boys of 8 to 16 years, is a standard style.

Cut in Fancy Cheviots, \$5 to \$12.

Fancy Cassimeres, \$6.50 to \$8.50.

Worsteds, Tricots, etc., \$8.50 to \$12.

The same range of fabrics is also cut in double-breasted blouse suits, a heretofore unusual style for Spring; but the boys imitate their elders, and men are wearing double-breasted sack coats. Prices, \$6.50 to \$12.

SINGLE-BREASTED BLOUSE.

LADS' SPRING OVERCOATS.

We carry a line of Spring Overcoats for boys as small as six years. Preference is given to the short cut single-breasted overcoats in Tweeds, Meltons, Covert Cloth, etc. \$8.50 to \$14; sizes, 6 to 16 years.

Spring Reefers, \$5 to \$9; sizes, 6 to 14 years.

“Outing” clothes comprise not only the garments used for outdoor sports, but the term is intended to describe the elegant *negligée* attire familiar to the frequenters of summer resorts.

Men wear suits with either single or double-breasted sack coats ; entire suits alike, or coat and vest of one and trousers of another pattern. Vests are often omitted and sashes worn where fancy flannel or “Oxford” shirts are used.

We prepare largely of fine white flannels, selling men's coats for \$10 ; vests, \$2.50 ; trousers, \$5.50. Fancy flannels and worsteds, neat stripes, checks or plaids on white ground, \$16 to \$22 per suit.

Single coats in great variety of dainty patterns ; flannel or worsted ; \$3.50 to \$12. Blazers are less popular than formerly for general use, but we still keep them in the various college colors, to meet the demand from students and others who fancy them ; \$3.50. Flannel caps to match, 50 cents. Silk caps, 75 cents and \$1.

SASHES.

Plain black is the favorite, but we have various colors ; \$2 to \$5. Belts of silk, 50 cents, 75 cents and \$1, according to width. Leather belts, 75 cents, \$1 and \$1.50.

For Bicycling, suits of black Jersey cloth, \$9. Blue flannel Norfolks, \$7.50 ; vests, \$2.25 ; Knickerbockers, \$4.50. Corduroy knickerbockers, \$4.50. Stockings, blue, black or gray, \$1 and \$1.50. " Jersey " shirts, plain colors or fancy stripes, \$5. Athletes' " Sweaters " of various colors, for men and boys, \$4 to \$6.

BATHING SUITS.

In one piece of blue flannel, \$1.50 to \$3. "Jersey" is the favorite fabric, however, and costs a trifle more; \$3 to \$6 for two-piece suits.

For this season we have a delightful surprise to offer bathers—a "life-saving" bathing suit made of Jersey cloth. Between double folds of cloth, around the chest, is a thin rubber buoy, scarcely observable even when inflated, but capable of supporting one in perfect ease in the water. The inventor created a sensation at Long Branch last season by floating beyond the breakers reading a book, which he held in one hand, while in the other he carried an umbrella.

This suit opens a new world of pleasure to experienced swimmers, and affords perfect safety to the novice

Plain black or blue suits. Also with stripes of blue, black, or red and white, or orange and black.

Men's sizes, 34 to 46 inches chest, \$7.50.

Youths' sizes, 30 and 32 inches chest, \$7.

Boys' sizes, 24, 26 and 28 inches chest, \$6.50.

Ladies' sizes, \$12. Misses', \$10.

COLLARS AND CUFFS.

Sixteen shapes of Collars of every quality; four shapes of Cuffs of every quality; and the shapes are the newest and most acceptable.

For 12½ cents about as fine and perfect a Collar as can be got for twice the money elsewhere.

For 20 cents the best Collar we know of anywhere, linen-all-the-way-through and five-ply; Cuffs, 40 cents a pair.

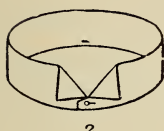

For 25 cents the most famous London Collar, Virgoe, Middleton & Co.'s linen-all-the-way-through, four-ply; Cuffs, 40 cents a pair.

Clerical Collars, 12½ and 20 cents each.

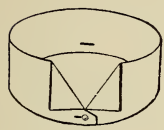

Coachmen's Collars, 20 cents each.

BOYS' SHOES.

What everybody wants for boys is a shoe that will bear the hardest of wear. He runs, jumps, twists, slides and wriggles one foot on top of the other. He is out in all weathers and seeks the worst places. Exposure and play are good for him, but hard on his shoes. Let him play, but give him the toughest of shoes.

Fine calfskin is not tough enough. Stout calfskin is the proper leather for him.

All boys should wear the Waukenphast. If a boy begins with it, he will never change. It is the shoe of nature ; but not all the shoes that are called by that name have the proper shape.
